Objective

Motivated and detail-oriented **Computer Engineering** student with a strong foundation in software development, programming, and problem-solving. Proficient in **Java** and **web technologies**. Eager to apply my technical and analytical skills in a dynamic environment that fosters continuous learning and professional growth.

Education

Diploma in Computer Engineering

Jamia Millia Islamia, New Delhi

Expected Completion: June 2025

Matriculation

Delhi Public School, Gaya

Completed: 2022

Skills

- **Programming Languages:** C, C++, Java, Python
 - **Web Development:** HTML, CSS, JavaScript
 - **Database Management:** MySQL
 - **Tools & Software:** Visual Studio Code
 - **Operating Systems:** Windows
-

Projects

Polygon Wallet

Developed a secure wallet application for managing cryptocurrency assets, allowing users to store, send, and receive tokens on the Polygon network. Integrated with blockchain APIs for real-time transaction tracking.

Inventory Management System

Built a Java-based system to manage inventory in small businesses, enabling efficient

stock management, tracking, and automated reordering. The system streamlined operations and reduced manual tracking errors.

Portfolio Website

Designed and developed a personal portfolio website to showcase projects, skills, and experience. Utilized HTML, CSS, and JavaScript for front-end development, with a responsive design optimized for various devices.

Certifications

- **Web Development**

Main Flow, Greater Noida

June 2024 – August 2024

(Acquired foundational and advanced web development skills, with hands-on experience in front-end technologies)

Languages

- **English:** Fluent
- **Hindi:** Fluent
- **Urdu:** Proficient
